

SunSmile Fruit and Vegetable Rinse

Benefits:

This high performance formula rinses away dirt, fungus, bacteria including ecoli, salmonella and parasites include Giardia, protozoans and parasitic worms and their eggs naturally. It dissolves waxy substances and neutralizes pesticides and other chemicals.

- Ingredients are non-toxic.
- No need to rinse after soaking produce.
- Cleans produce in minutes.
- Produce stays fresher longer.
- Safe for the whole family.
- Highly concentrated formula.
- Environmentally safe for daily use.
- No animal testing and no animal by-products.
- Fruit and Vegetable Rinse was developed using the latest technology in Sunrider's over 2 million square feet of state-of-the-art manufacturing facilities.

Additional Uses:

- Add 1 teaspoon to your laundry detergent to kill bacteria and germs.
- Apply 10 drops to a glass of water and soak toothbrushes overnight to destroy bacteria.
- Soak chicken, fish and meat to get rid of salmonella and campylobacter bacteria and worms.
- Add 10 drops to an ounce of water and swallow for upset stomach, food poisoning, diarrhea, parasites, fungal overgrowth (Candida). Drink this while traveling as a preventative.
- Add 1-2 drops to water with a few drops of Sunbreeze (another phenomenal product) to a diffuser to keep the air in your environment clean to breathe.
- Add half a teaspoon to a cup or two of warm water in an enema bulb and use for enema to treat for parasites and worms. This can also be added to a douche bulb to treat for vaginal yeast infections.
- Mix 10 drops in 2-3 Tbsps. warm water and irrigate the ears to treat ear infections in children, adults and animals (also good to treat for ear mites). No need to rinse out.
- Add 10 drops to pet's drinking water to treat for parasites. Do this for just a week or two. Bathe them in it to treat skin problems and for fleas.
- Mix one tsp. to a gallon of warm water and spray directly on slugs and other bugs, including ants.

SunSmile Fruit and Vegetable Rinse

- SunSmile is a safe, food based product which can be used in almost any situation which involves parasites, bacteria, microbes and other pests without harm to the body, because it is made of safe whole food extracts.
- TRY IT FOR EVERYTHING!

How To Use:

- Mix one capful (5 mls.) of Fruit and Vegetable Rinse in one gallon of room temperature of warm water. Soak for two minutes for most meat and produce. Heavily waxed produce like apples may need a ten minute soak and use a bristle brush after to remove all wax.
- Water you house plants or garden with used water. It is like rain water and plants love it.
- The prepared solution is active for one hour after adding to water so please do not pre-mix for later use.

Fruit and Vegetable Rinse Ingredients:

- Decyl Polyglucose corn Benzoin Extract, which is a natural antiseptic, preservative and cleanser.
- Benzoin Extract, a biodegradable cleaning agent derived from corn and coconut.
